

Namit Jaitly

Full-Stack Developer — React, React Native & Angular

Vancouver, BC, Canada | +1 (672) 968-1862 | namit.jaitly.nj@gmail.com

PROFESSIONAL SUMMARY

Full-stack developer with experience across web and mobile platforms, specializing in React, React Native (Expo), Angular, and Next.js. Skilled at building scalable front-end architectures, integrating REST APIs and backend services (Node.js, MongoDB, Supabase), and shipping production mobile apps through Expo/EAS build pipelines. Proven track record leading feature development end-to-end — from state management and offline-first data persistence to CI/CD and release management. Strong foundation in clean, accessible UI design and cross-platform compatibility.

SKILLS

Languages & Frameworks	JavaScript, TypeScript, React, React Native, Next.js, Vue.js, Angular, Node.js
Mobile (Expo)	Expo SDK, expo-router, Zustand, TanStack Query, expo-sqlite, EAS Build
Styling	HTML5, CSS, SCSS
Backend & Data	MongoDB, Supabase, SQL, REST APIs, JWT
Tools & Other	Git/GitHub, Storybook, WordPress, Gemini AI, Ollama

PROFESSIONAL EXPERIENCE

Frontend Developer (Contract)

Jun 2026 – Present

Lexen Systems Corp (Lexen-io) — Remote

- Contracted as frontend developer to build a vehicle insurance appraisal app in React Native (Expo), currently focused on the inspection photo capture workflow (camera capture, damage marker tagging, gallery import).
- Working with Zustand and TanStack Query for state/data sync, expo-sqlite for local-first persistence, and managing the EAS build pipeline.

Frontend Developer

Jul 2022 – Jul 2024

Softobiz Technologies Pvt Ltd — Mohali, India

- Built and led development of a server-side rendered dashboard in Next.js (Material UI, Supabase) for real estate investors to manage customer groups and staff permissions.
- Implemented role-based access control with CASL for dynamic, per-role permission management across the platform.
- Integrated Supabase for authentication, database management, and real-time features.
- Integrated Stripe payments, including webhook handling for automated payment processing and event-driven updates.
- Contributed to an Angular-based SaaS billing application (Chargebee-style), focusing on reusable components and scalable front-end architecture.
- Used Storybook for component-driven development, maintaining a personal dashboard to document, test, and isolate reusable UI components.

Frontend Developer

Jan 2022 – Jun 2022

NSPL IT Company — Amritsar, India

- Built a vendor management web application in Angular and Angular Material as a unified platform for sellers to manage retail operations across Amazon, Flipkart, and Myntra.
- Implemented modules for product listing monitoring, inventory management, order tracking, and centralized pricing control.
- Structured reusable, modular components to support scalability and future feature work.

PERSONAL PROJECTS

Zyra — Habit-Building App for Children

React Native, Expo, Node.js, MongoDB, JWT, Gemini AI, AWS

- Led full-stack architecture: Node.js/Express APIs, MongoDB data models, and React Native frontend integration.

- Built a recurring habit/task engine with daily and multi-time-per-day logic, timezone normalization, and real-time status tracking.
- Designed an AR-based reward system, keeping child progress and unlockable rewards in sync with consistent relational data.
- Managed EC2 deployment and resolved production issues to keep the app stable for demos.

RackTrack — POS & Inventory Management App

React, Node.js, MongoDB, JWT, Gemini AI

- Led full-stack architecture: Node.js/Express APIs, MongoDB data models, and React frontend integration.
- Integrated Gemini AI to automate menu-item and ingredient form-filling.
- Owned GitHub workflow, coding standards, and PR review process for the project.

My Roots — Family Journal Web App

HTML5, JavaScript, CSS, SCSS, Tailwind, Firebase

- Led a small team building a single-page app in vanilla JavaScript and HTML with a dynamic content-injection architecture.
- Collaborated closely with designers to keep delivery on schedule.

EDUCATION

Post-Degree Diploma, Web & Mobile Application Design & Development

Langara College — Vancouver, BC, Canada | 2024 – 2026

Professional Training Program in Web Development

NSPL Research & Training Centre — Amritsar, India | Feb – Oct 2021 | Grade: A

Bachelor of Commerce

Guru Nanak Dev University (GNDU) — Amritsar, India | 2017 – 2020
